

23 March 2021

11:00 - 12:00

WEBINAR

LET FUNDSXML WORK FOR YOU

INCREASING IMPORTANCE OF DATA IN FUND INDUSTRY

Aside from its technical advantages and its easy handling, FundsXML is a pan-European format, allowing B2B and B2C activity in the mutual fund sector. The development of this standard was pushed by various companies to integrate numerous working processes in the sector, enclosing the foundation of a fund and the system of registration as well as the electronic data exchange, beyond the borders of companies and countries.

Coping with ESG reporting? FundsXML can help

Exchange holdings data with FundsXML

Interviews: Practical ideas and strategies on how to use FundsXML for ESG Data Exchange
